18. Installation Completed

The throne toilet has no cistern and is a direct attachment to the water valve.

The toilet seat bidet will need a power point. The power point should be on the right hand side when facing the toilet. Please note that the bidet seat has a seat sensor. The bidet function will not work unless the seat sensor is activated by: 1. Seating on the seat 2. Having your hands on the seat at the 4 o'clock position 3. Have a wet cloth on the seat at the 4 o'clock position.
